

Ton Musters Appointed as Vice President and General Manager EMEA for Attachmate & NetIQ

London, 04 November 2009 – Attachmate & NetIQ announce the appointment of Ton Musters as Vice President and General Manager for EMEA. Ton will be responsible for all EMEA activities for Attachmate (as well as NetIQ as an Attachmate owned business) with a primary focus on Sales and Marketing.

Ton has been a successful manager and leader within Attachmate for over 10 years. He previously held the role of Regional General Manager for the Benelux, South Africa (BenSA), France and Nordic operations. Ton brings with him strong leadership skills, a strong focus on open communications and collaboration, and receptiveness to new ideas and creativity. He also possesses a solid understanding of both the Attachmate and NetIQ product portfolios. Ton will focus on connecting with company members EMEA wide, exceeding FY2010 targets and developing plans and strategy for FY2011.

“After the WRQ and Attachmate merger, and then the acquisition of NetIQ in 2007, as General Manager, I have been working on the integration and expansion of the new enterprise”, said Ton Musters. “During this period we have been able to strengthen our position and substantially expand our product lines. In addition to the development and delivery of advanced software for terminal emulation, application integration and secure data transfer, the acquisition of NetIQ resulted in a specific focus on advanced system and security management solutions. In this new position I am able to apply my experience across the entire EMEA region. My overall goal is to achieve substantial growth across all regions.”

About Attachmate

Attachmate delivers advanced software for terminal emulation, application integration, and secure communications. Our NetIQ business provides solutions for automating IT processes and managing the performance, security, and compliance of your distributed IT. With our technologies, more than 65,000 businesses worldwide are putting their IT assets to work in new and meaningful ways. Attachmate has been helping businesses extend, manage, and secure their IT investments for more than 26 years. Headquartered in Seattle, Washington, Attachmate has offices and partners all over the globe. We are widely recognized for our innovative products, easy business transactions, and exceptional customer service. For more information please visit www.attachmate.com.
